

Smart Pen

Overview: A camera, pen, and recorder all-in-one device that syncs audio to written notes

Features:

- Real pen that writes on real paper AND records audio
- Links and synchronizes what is written on the page with the audio that is recorded at the same time
- Allows user to go back to any point, tap on a word or diagram and have the audio played back from that point
- Several versions: Echo, Sky WiFi, and Livescribe 3

FAQs:

The recording is difficult to understand due to background noise.

Sit towards the front, near the instructor. Be aware of rustling papers, people talking in the background, and pen movement that can cause background noise.

The Livescribe dot paper notebooks are expensive (4pk is approx. \$30).

Print free downloadable dot paper at: http://www.livescribe.com/en-us/support/ls3/dot_paper.html

The Smart Pen does not have enough storage space.

Smart Pen should hold at least 80 hours of recording time. With that in mind, plan to backup files on computer regularly using an organizational system.

Note: The *Livescribe 3Smartpen* was just introduced. Key upgrades are: Bluetooth syncs notes to mobile devices, notes can be converted to text, and screen has been replaced with LED lights.

Below is a list of the most common LED colors you will see on your Livescribe 3 smartpen:

- Solid **Green**: Paired with a device and recording penstrokes, but the device is not on, not in range (within 10 feet), or the Livescribe+ app is not running. If needed, tap the Device Pairing “button” at the bottom of the first page in the Livescribe 3 Starter Notebook to initiate the Bluetooth connection.
- Blinking **Green**: Powered on, waiting for a Bluetooth connection.
- Solid **Blue**: Powered on, Bluetooth connected to mobile device.
- Blink **Yellow, Yellow, Yellow** (3 times): Approximately 15% of battery life remaining.
- Solid **Red**: Audio recording in process on mobile device.
- Blinking **Yellow**: Firmware update in process.

Reading Apps

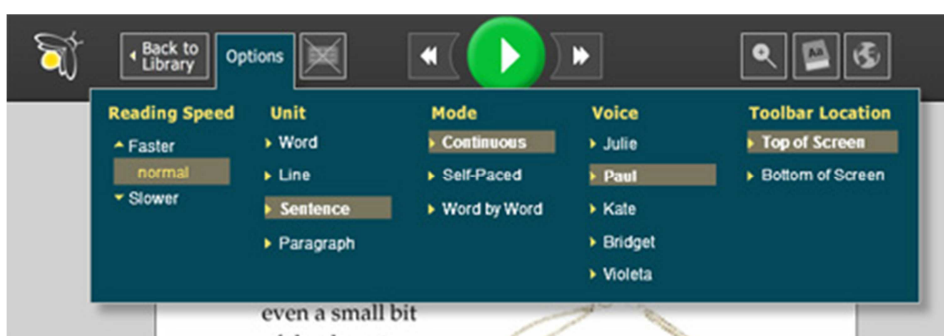

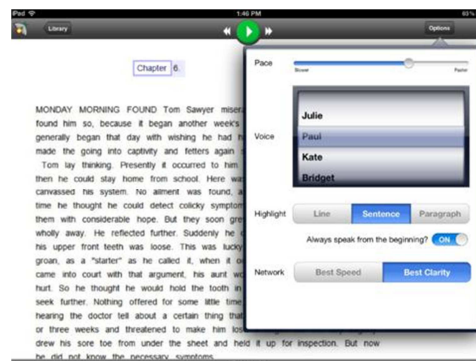

Merriam-Webster Dictionary

- Offers Audio pronunciations for words
- Voice search
- Integrated Thesaurus: synonyms & antonyms
- Ability to add words to your favorites list
- Recent history
- Daily word
- Completely FREE!

Firefly by Kurzweil

- Delivers anytime, anywhere access to key reading supports
- Customizable speed, voice, and pacing
- Access to the shared Universal Library content available to Kurzweil 3000 - firefly Web License customers
- Completely FREE!

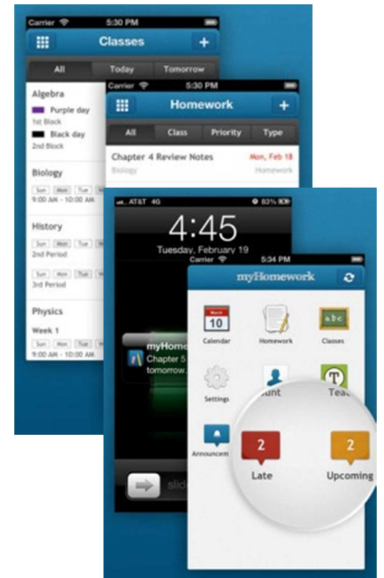

Time Management Apps

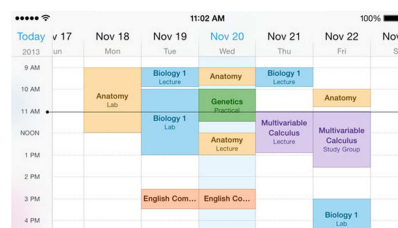

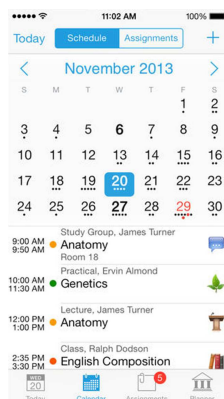

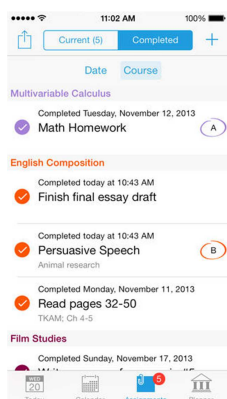

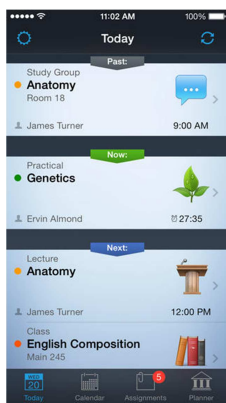

myHomework Student Planner

- Track classes, homework, tests and assignments
- Pushes notifications to remind when assignments are due
- Can access calendar and contacts to put all information in one place
- Completely FREE!

iStudiez Pro

- Organize schedule using color-coding system
- Record instructors' contact information
- Organize assignments by date, by course or by priority, or sort them into pending and completed
- Track grades/GPA
- Sync with other devices through the cloud and offers option to backup data by email
- Set general alarm time for classes and separate alarms for each assignment
- Lite version is free (only allows 7 assignments); the Pro version is worth the \$2.99

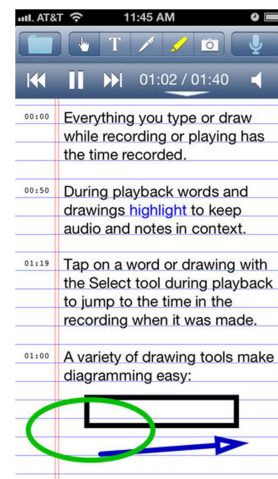

Note-taking Apps

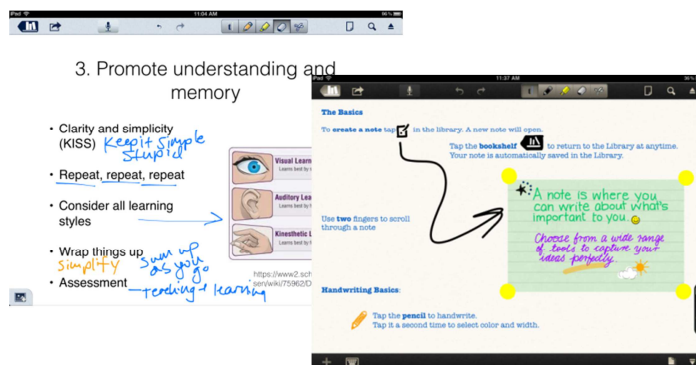

Audio Notes

- Record audio and synchronize with notes and pictures taken during the recording
- During playback, text, drawings, and photos are highlighted, helping the user remember the context in which the notes were taken
- Lite version is free; the regular version is \$4.99

Notability

- Imports photos, web clips, .doc, .ppt, .xls, and PDF using Google Drive
- Record audio and synchronize with notes and pictures taken during the recording
- Export to email, iCloud or Dropbox
- Advanced word processing allows user to choose the font, style, color, and size of text
- Allows for handwriting or typing on top of the files
- Highlighting
- Unlimited undo and redo options
- Automatically marks date and time of creation
- Organization system by subject for notes, as well as a “search by keyword” option
- Various backgrounds available-lined, blank, graph backgrounds
- \$2.99

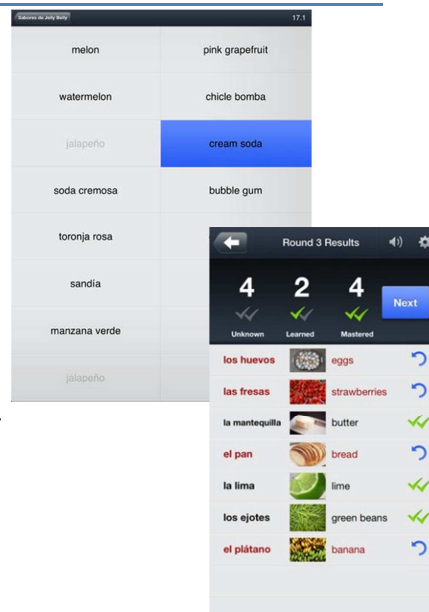

Study Skills Apps

Quizlet

- Full integration with your Quizlet.com account
- Audio in 18 languages
- Search 21+ million flashcard sets
- 3 distinct study modes - Flash Cards, Learn, and Scatter
- Works offline
- Completely FREE!

Flashcards+

- Flashcard+ allows you to sync decks across devices and online. You can also share decks with friends
- Human quality voice synthesis in 22 languages with support for dialect and gender.
- Practice your pronunciation and retain more by listening to cards.
- No Ads
- Auto-Play card audio by double clicking the speaker icon
- Keep track of the cards you know by checking/unchecking them and only studying the ones you know or don't know
- Shuffle decks by shaking!
- Completely FREE!
