

### **Benefits of the Computer-based GED**

Lethbridge College Testing Services is pleased to be a **Pearson VUE-Authorized Test Center**, which means we can now offer the **computer-based GED**.

Some of the benefits of the computer-based GED are:

- **More available test dates** – Available all year within our business hours, including Tuesday and Thursday evenings during the school year.
- **Flexible test schedule** – Candidates choose how they want to spread out or combine the 5 GED tests/modules; no longer required to write during our pre-set, two-day schedule.
- **Work at your own pace** – Complete the tests at your own pace within the set time limits; no more waiting for an entire room to finish a test before starting the next one.
- **Centralized scheduling** – Schedule online at [www.ged.com](http://www.ged.com) (available 24 hours a day) or by calling the GED registration call center at 1-877-EXAM-GED (1-877-392-6433).
- **Pay-per-module fees** – Pay only for each scheduled module, meaning you can spread out your GED test fees as needed. Cost is \$40 (USD) per module, or \$200 (USD) for the entire test. Cheaper than our previous on-demand and rewrite prices for the paper-based test!
- **Faster results** – Modules are marked instantly (except the Language Arts – Writing module), so you know immediately how you've done. Note: Your Alberta Equivalency Diploma still needs to be processed by Alberta Education before being issued.
- **Same series currently used** – The computer-based GED used in Canada is the same as the 2002 series currently used for paper-based testing. This means your existing preparation/study materials are still valid, and you can combine scores from the paper-based and computer-based versions to earn your Alberta High School Equivalency Diploma.
- **Exam accommodations still available** – Your supporting documentation for disability- or health-related needs will be provided directly to Pearson VUE; please allow up to 30 days for any accommodations requests to be processed.
- **French version is more accessible** – Available at any Pearson VUE-Authorized Test Center.
