

POLICY AND PROCEDURES

ENVIRONMENTAL RESPONSIBILITY

Code: 6.11

Category: Administrative

Effective Date: August 25, 1993

SUBJECT: ENVIRONMENTAL RESPONSIBILITY

POLICY: Lethbridge College is committed to ensuring that it conducts its affairs in an environmentally sound manner.

PREAMBLE:

In its role as an educational institution, an employer, a corporate citizen and a property manager, Lethbridge College recognizes that its academic and operational activities can have significant impacts on the environment, and therefore, has a special responsibility to conduct its affairs in an environmentally sound manner.

With its commitment to human development, excellence, communication and accountability and its international renown for environmental education, Lethbridge College also believes that it should take a leadership role in environmental management.

GUIDELINES:

1. Students will have adequate opportunities to become well educated about environmental issues and solutions as they relate to their individual programs of study.
2. Lethbridge College will manage its buildings and grounds in an environmentally conscious way.
3. Lethbridge College will manage its internal operations in an environmentally conscious way, as technology, economics, and common sense allow.
4. Lethbridge College will encourage all employees and students throughout the organization to be conscious of environmental considerations and be protective of the environment in their work and personal lives.
5. Lethbridge College will strive to achieve a healthy working environment for staff and students.
6. Employees will be encouraged to provide leadership and support roles in the community and within Lethbridge College that support environmental responsibility (i.e. offering seminars).
