

> AGRICULTURE SCIENCES

Ready to pursue the field of your dreams?

In Lethbridge College's Agriculture Sciences program, your typical workspace will also include a benchtop a laptop and a tailgate. You'll network with some of the most progressive producers in the region and learn about agriculture issues and solutions right here in southern Alberta. Begin your studies in a common first year and choose your speciality in your second year – agronomy, animal science or agriculture business.

30+

DIFFERENT INDUSTRY PARTNERS WHO PROVIDE STUDENTS WITH TOURS, DEMONSTRATIONS AND GUEST LECTURES
