

> MULTIMEDIA PRODUCTION

Ready to put your creative talents with computers to the test?

Lethbridge College's Multimedia Production program is the place to turn your passion into a rewarding career. Multimedia content creators are the masters behind those moments of magic that you experience on a variety of devices every day. They are the people with skills in web and interactive programming, layout and design, 2-D and 3-D animation, and video and audio editing. Get you on the inside track to a growing field that is reinventing the concept of communication.
