

# > PRE-EMPLOYMENT TRADES TRAINING

## Ready to kick-start your career?

The Pre-Employment Trades Training program is designed to help you become an apprentice. Trades employers are reluctant to hire employees with no experience due to the complexity and high cost of machinery and equipment. Lethbridge College's Pre-employment Trades training is designed for those who are not yet employed or apprenticed. Lethbridge College offers an apprenticeship curriculum, as well as various safety certificates to get you started on your path to an apprenticeship. At the end of the year, you'll be ready to write the first-year apprenticeship exam.
