

WELDER APPRENTICESHIP OR WELDER WIRE PROCESS OPERATOR APPRENTICESHIP

Ready to turn up the heat on your future?

Build a solid career with hands-on training and knowledge as a welder apprentice at Lethbridge College. You'll learn to join and sever metals used for vessels, girders, piping, beams and other components. After graduation, you can choose to practice your craft in a variety of industries – or even run your own business.
